Chalets  
TOP VIP

The unique south-facing position of the "Balcon du Lavancher" ensures its all day year-round sunshine, and from this exceptional location at a place called the "Alpage des Esserts", Philippe's 9 chalets look down on the beautiful Chamonix valley. These eco-chalets, with their warm tones of old alpine wood, are nestled together in a small authentic hamlet directly facing the majestic "Mont Blanc" itself.

The chalets and mazots have been restored with meticulous care and attention to detail. They feature beautiful antique furnishings, exquisite decoration and many paintings of the "masters of the mountain". Perched on the mountainside in a lovely garden lavishly decorated with flowers the hamlet is in perfect harmony with the surrounding alpine pastures. When night falls it is lit up both in summer and in winter time. Beneath, Chamonix sparkles in the heart of the valley. In the summer, you are right at the beginning of many mountain paths including a 30-minute walk from "la mer de Glace" glacier, and in winter, you are at the end of the renowned off-piste ski route "la Pendant" (which begins in les Grands-Montets).

As a true natural mountain balcony, the property enjoys unhindered views of le Mont-Blanc, les Drus, le Brévent, la Flégère. Nearby, you'll find the forest and its clearings, where you may see roe deer and similar wildlife.

The highest quality house and bath linen has been selected. Beds are made up for your arrival. Bed sheets are flannel in winter, embroidered cotton in summer. Hermès perfume and toiletries are provided.

A "Hammam" (steam room) chalet, 9 private outdoors spas (water 38°) with views over Mont-Blanc and a "Home Cinema" chalet are at your disposal, as is a large 17th century dining room which can seat 12/14 guests.

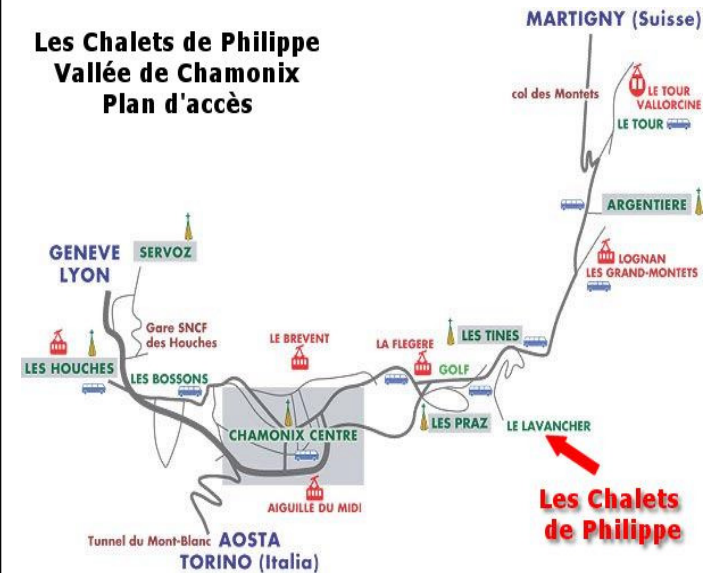

All chalets are equipped with television/DVD player, safes and WiFi internet connection.

On your terrace you will find a large wood table, loungers, a sun umbrella and a barbecue.

You can take advantage of our restaurant services and have your meals delivered to your room. If you prefer, you may use the services of our Chef who will cook your favourite meals in your chalet.

Soon an ancient bread oven, a chapel, a natural lake (Biotop pool) and other chalets will complete the hamlet, which will also function on solar energy.

### Les Chalets de Philippe Vallée de Chamonix Plan d'accès

"This hamlet is exceptional for many reasons : its location first of all : Perched on the south facing hillside, on the balcony of the Lavancher Chamonix Valley, it offers a breathtaking panoramic view of the Mont Blanc, the surrounding summits and the entire valley...!"

**This hamlet of seven chalets on a hillside just outside Chamonix is impossibly cute. Chalet "Les Trolles" is a two-storey beauty with a tub large enough to swim in. Philippe was a great host, never too busy to direct us to a ski area, or tell us the story of his chalets.**

*Philippe also collected Alpine antique furniture, most of which seemed to be in our chalet. More contemporary details included a vast American-style fridge, WIFI access and a flat screen TV; It was blissfully secluded, quiet and romantic. The temptation to stay in our chalet was strong. It was a truly romantic week. The chalet was so cosy and full of atmosphere that we felt like characters from a fairy tale.*
